## PROGRAM TWO: WHS RISK MANAGEMENT UNITS FOR STATUTORY POSITIONS LEVEL 5 (MANAGERS)

### COURSE OVERVIEW

This program meets the requirements of the Work Health and Safety (Mines) Regulations 2022 for units for statutory positions. It covers the application of risk management and work health and safety for holders of Statutory Positions, in accordance with Schedule 26 of the Work Health and Safety (Mines) Regulations 2022.

These Regulations detail the requirements for the appointment of persons to statutory positions, which have specific workplace health and safety responsibilities.

The following statutory positions (pitched at an AQF Level 5) require three units of competency:

- Site senior executive
- Exploration manager
- Underground manager (non-coal)
- Underground manager (coal)
- Quarry manager
- Underground ventilation officer
- Radiation safety officer

### UNITS COVERED

1. BSBWHS411 Implement and monitor WHS policies, procedures and programs
2. RIIRIS402E Carry out the risk management process
3. RIIRIS501E Implement and maintain management systems to control risk

### LEARNING OUTCOMES

- Plan and prepare to develop the framework for a risk management system
- Develop the processes to support the risk management system
- Plan and implement the risk management system
- Identify workplace hazards
- Assess workplace risk and identify unacceptable risk levels
- Identify potential actions and develop risk controls
- Implement and evaluate the risk controls
- Audit the risk management process and complete records
- Communicate, consult, and provide information and training to the work team about WHS policies and procedures
- Monitor, review and update the risk management processes
